

Ideal cold water cleaning for everyday tasks

Like all Nilfisk high-pressure washers, the MC 2C platform was engineered to provide exemplary pressure-washing results – but there’s always room for improvement, so we’ve increased the machines’s cleaning effectiveness and efficiency through the primary point of contact: the pump.

The MC 2C line comprises models designed for routine semi-professional use mainly by tradesmen, on small construction sites, agriculture or small contract cleaners.

The compact cold water line that combines high performance level for increased cleaning efficiency, ergonomics and durability for superior everyday cleaning.

- Powerful detergent application with universal foam sprayer – easy to use
- 4-in-1 nozzle ensures easy change between nozzles – always the right nozzle for almost all cleaning tasks and applications
- New hose-reel guide for an easy, one-handed rollup and protected hose storage
- Easier water-flow regulation for a quick adjustment according to the cleaning tasks
- Ergo 2000 spray gun and ergonomic accessory concept improve handling and reduce strain
- Easy transport and storage (wheels, telescopic handle, lifting bar)
- High-quality alloy pump head and automatic start/stop for a high wear resistance
